MyAPT

Get started
Your new smart home is waiting.

MyAPT Welcome Email
Open your MyAPT welcome email to get started. If you didn't receive the email, please contact your property manager.

MyAPT app is available for both Apple and Android devices.

Download on the App Store

GET IT ON Google Play

Your Cox MyAPT hub
The MyAPT hub connects all your smart devices together in your home.

If you cannot locate your hub or for more information on MyAPT, please refer to the MyAPT app or contact your property manager.

Smart devices
Control your smart devices anytime, anywhere.

Scenes
Scenes control multiple devices at once. They are great for spontaneous movie nights or a late dinner that can be set in seconds.

Routines
Create automatic actions with routines. Routines are great for helping to save energy when you leave home, turn on your lights when you wake up, or even send notifications if activity is detected when you're away on vacation.

Voice control
Enjoy a hands-free smart home experience with compatible devices that support Amazon Alexa or Google Assistant.

About smart locks
If your smart home has a smart lock, your property manager will share your door code with you. If you've forgotten or have not received your door code, please contact your property manager. You will always have the ability to lock and unlock your door remotely in the MyAPT app.

Unlocking your door
Enter your door code provided to you by your property manager and press the checkmark ✔ button.

Locking your door
Close your door and press any number on the keypad to lock your door.

Important
Devices should always work when controlling them manually, such as using a light switch at the wall. If you experience problems manually controlling devices, please contact your property maintenance.

COX

MyAPT

Devices

Control all your smart devices in your **control** section.

Personalize your home

- Rename and change device icons.
- Rename rooms.
- Reorder devices and rooms that match your preference.

Learn more
Explore more details about your new smart home at **support.iotashome.com**

Voice

Use your voice to control your smart home. MyAPT works with Amazon Alexa and Google Assistant. Asking your home to set a scene or turn on a light has never been so easy.

Learn how to link your MyAPT account with voice services at **support.iotashome.com**

Suggestions:

- Okay Google, turn on movie night.
- Okay Google, turn off the TV.
- Alexa, set the thermostat to 70 degrees.
- Alexa, turn off all the lights.

Scenes

Scenes control a group of devices that you can play whenever you're in the mood. Scenes are great for flexible schedules or even spontaneous moments when the time is right for movie night.

You can control scenes with a single tap in the app or use voice control.

Suggestion:

- Turn off all your lights, turn on your TV, and make your home a cozy 72 degrees for movie night.
- Dim your dining room lights to 60%, turn off the kitchen track lights and turn off your TV for dinner time.

Routines

Set up automatic actions with routines. Routines are a great way to help save energy when you're away from home, turn on your lights when you wake up or even receive a notification if activity is detected during your vacation.

Home automation made easy.

Suggestion:

- Your bedtime routine can turn off all your lights and set a cozy temperature every weekday at 10pm.
- Automatically turn on lights and turn on your stereo when you arrive home from work between 6–7pm.
